

Kim Minsu

AI Backend Developer / Integration-focused Developer

Contact

- Email: kms545487@gmail.com
- GitHub: <https://github.com/Kiim-Miin-Su>
- Notion: https://www.notion.so/My_Study-24ce54b2d72f8067ae2af57883c0c8e1

Education

- Chosun University, Department of Artificial Intelligence Engineering, 3rd year transfer student, 2026 - Present
- Seoul Institute of the Arts, Practical Music, Singer-Songwriter Major, 2019 - 2024

Skills

- Programming: Java, C++, JavaScript, TypeScript
- Backend: Spring Boot, NestJS, REST API, Postgres
- Frontend/App: React Vite, React Native Expo, HTML, CSS
- AI/ML: scikit-learn, data analysis, preprocessing, model evaluation
- Tools: Git, GitHub, Docker, VS Code, Jira, Notion
- Ownership: product planning, technical decision making, integration workflow

Projects

Moveon

- AI/VLM-based exercise video feedback mobile app
- Role: product planning, technical development, integration workflow
- Tech Stack: React Native Expo, TypeScript, AI Server, Backend API
- Integration: frontend, backend, AI server, Jira-Notion project workflow
- Repositories: Moveon_frontend, Moveon_ai, Moveon_backend, Moveon_integration
- Project Notion: <https://www.notion.so/Project-Move-on-346e54b2d72f80af9318e3a1ca513137>

VA-AFS

- Adaptive Frame Sampling project for video analysis
- Role: problem definition, experiment planning, Python implementation, report direction
- Tech Stack: Python, Computer Vision, frame sampling
- Report: resource/인공지능공학_20244792_김민수_VA-AFS(ver_06).pdf

Scikit-learn Data Analysis

- Optuna + preprocessing pipeline with PCA/LDA and Random Forest classification
- Role: analysis planning, preprocessing pipeline, model evaluation
- Tech Stack: Python, scikit-learn, Optuna, PCA, LDA, Random Forest

Experience

- Korea IT Academy AI Software Developer Course: Node.js, Python, Java
- BRAIN Data Analysis Club: data analysis and machine learning practice
- Band Club Eumryul: vocal and piano
- Information Processing certification
- Team project ownership: planning, implementation, integration, and workflow management

Career Goal

- AI Backend Developer / Integration-focused Developer
- ML Inference Service Engineer
- Data Scientist / ML Engineer
